Africa Energy Forum 2024

EVENT · 26 JUNE 2024, 09:00 - 10:30 UTC +02:00

Fira de Montjuïc, Av. Reina Maria Cristina, s/n 08004 Barcelona, Spain

Meet CMS Energy & Climate Change experts

We are a proud sponsor of the 26th edition of the Africa Energy Forum (aef 2024), where the future of Africa's energy landscape takes centre stage, uniting the continent's key stakeholders, investors, and future leaders at the premier platform for collaboration and innovation in Africa's energy sector.

As we approach a pivotal moment in the industry, focusing on "Energy Systems of the Future – Balancing Africa's Needs with Global Goals." aef will bring four interactive discussions covering vital areas such as project developments, technology innovations, cross-sector opportunities, and collaborations.

Meet representatives of our Energy & Climate Change group at **stand A174!**

In addition, our Energy & Infrastructure partner – Pedro Couto will take part in a discussion about procurement strategies and renewable energy projects:

26 June | 09:00-10:30 am

Striking a Balance for Africa's Gas Projects

Chatham House Rule, Stream 3 - Interactive Boardroom 2

To arrange a meeting during the AEF, please contact one of our attendees profiled below.

For further information about the AEF 2024, please visit <https://www.africa-energy-forum.com/>
